An act to amend Section 473.3 of the Business and Professions Code, and to amend Section 94999 of the Education Code, relating to education, and making an appropriation therefor.

## LEGISLATIVE COUNSEL'S DIGEST

SB 1473, as introduced, Figueroa. Education: private postsecondary and vocational education.

(1) The existing Private Postsecondary and Vocational Education Reform Act of 1989, which is administered by the Bureau for Private Postsecondary and Vocational Education in the Department of Consumer Affairs, generally effectuates legislative intent to ensure minimum standards of instructional quality and institutional stability in private postsecondary educational institutions. Existing law establishes the California Postsecondary Education Commission as the statewide postsecondary education planning and coordinating agency and as an adviser to the Legislature and the Governor. Existing law establishes the Joint Committee on Boards, Commissions and Consumer Protection and specifies its duties with respect to the review of various boards and commissions. Existing law requires the committee, in cooperation with the commission, in 2002 and every 4 years thereafter, to hold a public hearing to receive testimony from the Director of Consumer Affairs, the Bureau for Private Postsecondary and Vocational Education, private postsecondary educational institutions regulated by the bureau, and students of those institutions. Under existing law, the bureau shall have the burden of demonstrating a compelling need for the continued existence of the bureau and its regulatory program, and also that its function is the least restrictive regulation consistent with public health, safety, and welfare.

This bill would change the intervals and dates that the committee is required to hold public hearings to receive testimony from the Director of Consumer Affairs, the Bureau for Private Postsecondary and Vocational Education, and others from every four years starting in 2002 to unspecified dates and intervals.

(2) Existing law establishes the Private Postsecondary and Vocational Education Administration Fund and the continuously appropriated Student Tuition Recovery Fund. Existing law also specifies that certain violations of the Private Postsecondary and Vocational Education Reform Act are subject to civil penalties and that certain willful violations of the act are punishable as crimes.

Under existing law, the Private Postsecondary and Vocational Education Reform Act of 1989 becomes inoperative on July 1, 2007, and is repealed unless a later enacted statute becomes operative on or before January 1, 2008.

This bill would change this inoperative date to an unspecified date, thus extending the operation of the act, thereby making an appropriation by extending the existence of the continuously appropriated Student Tuition Recovery Fund.

By extending the operation of the provisions of the act that establish crimes, the bill would impose a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: yes. Fiscal committee: yes. State-mandated local program: yes.
